

# DEPARTMENT OF ZOOLOGY

## KATWA COLLEGE

### **Program Outcome (PO) Of NEP Syllabus 2023-2024**

A myriad of career opportunities will be available for students such as wild-life biologists, nature conservation officer, environmental consultants etc & also conduct research in zoology related fields using appropriate methodologies. Students can pursue a career in academics like teaching zoology or biology at high school, graduation or university level.

Due to comprehensive knowledge of animal kingdom students can work as a veterinary assistant in animal care and researches. Many students will be able to get higher education opportunities such as Ph.D. in Zoology, Ph.D. in Environmental Science or related field. This study creates a science communication business, offering writing, editing or broad casting services to address real-world issues like sustainable management, human concerns related to animal diseases etc.
